

SCHOOL UNIFORM (PROBLEMS + POSSIBLE SOLUTIONS)

PROBLEM

School uniform limits creativity and self-expression.

School uniforms are uncomfortable (too hot in summer, too cold in winter).

Students find school uniforms boring or old-fashioned.

SOLUTION

Schools could allow students to use accessories (jewellery, belts, ties, scarves, pins) to show their own style.

Schools can offer different seasonal uniforms (lighter fabric for summer, warmer options for winter).

Schools could update the design every few years, let students vote for new styles or colours.
